LINGUAVIVA OFFERS TO ALL INTERNATIONAL STUDENTS 3 DIFFERENT STUDY OPTIONS TO PREPARE FOR THE ADMISSION TESTS IN ITALIAN UNIVERSITIES

OPTION A FOUNDATION PROGRAMME

Linguaviva Foundation Programme is a long-term preparation course for international students who wish to pursue a degree at an Italian University. The Programme helps students to prepare for the entry requirements of Italian Universities.

The course is designed to bridge academic gaps, improve your Italian to achieve B2 level required to access Italian University and familiarise you with Italian life and culture.

The course curriculum is tailored to the fields the students plan to study at the University and to the exams they need to take to be admitted to a specific department. Students are given a focused training for scientific or cultural subjects as Math, Physics, History of Architecture, Logic, etc. according to the degree course chosen by the student.

During the courses, students will learn about how the exams works and they will get plenty of practice using the types of questions they will see in the exam. Students will exercise also on past exam papers.

The subject specific modules are tailored to your chosen degree to ensure that you are fully prepared for the admission test you will be taking.

The admission exams are organized by the local universities.

Italian Language Test

To enroll on any Italian University for first level degree, students are requested to sit for an Italian language exam of Level B2. The Italian language exam is held on different dates between July and September. Passing this exam is a compulsory requirement for admission to the chosen University course or to the admission examination for specific Degree studies. Most universities have adopted ITA-L2 test which is a computer based test, multiple-choice test composed of 3 parts (listening, reading and grammar) of increasing difficulty. The questions are multiple-choice with 3 alternatives, one of which is correct.

Students who already have CILS, CELI, PLIDA certification for level B2, are exempted from Italian language exam.

TOLC-I ENGINEERING TEST

The admission exam is a computer-based test. The TOLC-I structure consists of 50 questions divided into 4 sections. Candidates have 110 minutes to complete them. 15 minutes are allocated to complete the English language test. Total time is 125 minutes.

The format is as follows:

Mathematics - 20 questions

Science (Chemistry and Physics) - 10 questions

Reading Comprehension - 10 questions

Logic - 10 questions

English Language Test - 30 questions (the result is only to assess if students need extra courses for English language during the academic year)

Grading System

1 point for each correct answer

-0,25 points for each wrong answer

0 points for no answer.

For the English language proficiency test, there is no penalty for incorrect answers. The score is determined by awarding 1 point for correct answers and 0 points for incorrect or no answers.

Minimum score

Depends on university and their admission test rules

Our Campus in Milan prepares students for Engineering Studies in Italian language. Admission to all bachelor courses is with a selective admission test.

The admission exams are different in each University and take place on different dates. Most of the Italian Universities for Engineering have adopted a common multiple-choice computer based test TOLC-I.

ENGINEERING TEST AT POLYTECHNIC OF MILAN

This test is valid for all engineering degrees offered at Polytechnic of Milan. The admission exam is a computer-based test, consisting of a total of 65 multiple-choice questions.

All questions have five options, of which only one is correct. Candidates have 110 minutes to complete the test and the format is as follows:

Mathematics, Logic and Statistics - 25 questions

Physics - 5 questions

Verbal Comprehension - 5 questions

English Language Test - 30 questions (the result is only to assess if students need extra courses for English language during the academic year). You have to take the English test even if you have certifications of your English language skills.

Grading System

1 point for each correct answer

-0,25 points for each wrong answer

0 points for no answer

Minimum score

60/100 is the minimum score to pass the test

24/30 English Language test

Less than 60/100 students will be allocated Compulsory Educational Supplements, extra courses in Math or Physics

Less than 24/30 in English Language test students will have to attend additional English courses

ENGINEERING TEST AT POLYTECHNIC OF TURIN

This test is valid for all engineering degrees offered at Polytechnic of Turin.

The admission exam is a computer-based test, consisting of a total of 42 multiple-choice questions.

All questions have five options, of which only one is correct. Candidates have 90 minutes to complete the test and the format is as follows:

Basic Technical Knowledge - 6 questions

Grading System

1 point for each correct answer

-0,25 points for each wrong answer

0 points for no answer

Minimum score

20/100 minimum score to access ranking.

If students obtain 60/100, they are guaranteed a place the chosen Engineering degree.

If students score is less than 60/100 they may wait for the ranking to see the final placement or alternatively they make take the TIL-I test again in one or more subsequent sessions, the result of the last test cancels the previously acquired one.

The course is suitable for students wishing to prepare TOLC-I test.

The course is suitable also for students wanting to study at Polytechnic of Milan and Polytechnic of Turin, which have their own admission test different from TOLC-I exam.

Students will be prepared both in Italian language and University admission tests.

FINE ARTS AND MUSIC AT LINGUAVIVA 2023

Our Campus in Florence prepares international students wishing to enter a Fine Arts Academy and Music Conservatory in Italy.

The aim is to provide students with an adequate linguistic and cultural preparation for Bachelor's and Master's degree.

Students will be prepared in Italian language and will improve technical-artistic or music skills required by admission exams.

The Italian language course prepares students to achieve B2 level of knowledge which is a mandatory admission requirement of Music Conservatories and Fine Arts Academies.

The course aims to develop specific language skills needed for the selected area of studies and offers the opportunity to deepen cultural knowledge in Music and Arts.

The exams for Music Conservatories and Fine Arts Academies are very selective.

They foresee practical assessments and an oral interview aimed to analyze candidate's experiences and motivation.

The Preparatory course for Music area trains students to sustain the admission exam with an appropriate music performance.

The Preparatory course for Fine Arts subjects provides students with a technical preparation in the required field and helps students to assemble a portfolio, highlighting their artistic skills and creativity related to the chosen academic course.

Since the study programme is partially tailored on the student's profile and skills, the practical preparation is based on an individual training to exercise artistic skills according to the requirement of the exam and to student's previous experience.

As a result of the partnership with Florence Music Conservatory and Florence Fine Arts Academy, Linguaviva guarantees a high-quality preparation, cooperating with teachers from these prestigious academic Institutions.

Please contact Linguaviva Campus Florence for more detailed information.
